ABDULRAHMAN AHMAD AL-ZOUBI

Amman, Jordan | abdalzoubi03@gmail.com | linkedin.com/in/abdulrahman-alzoubi-97ab2528b

PROFESSIONAL SUMMARY

Cybersecurity professional with a strong foundation in networking, system administration, cybersecurity, and software security. Hands-on experience with TCP/IP, VLANs, NAT, routing and switching, network troubleshooting, firewalls, Active Directory, Linux, and penetration testing through practical training, university projects, and cybersecurity labs. Experienced in analyzing systems, identifying issues, troubleshooting technical problems, and working with security and diagnostic tools. Strong problem-solving and communication skills, with experience leading a university CTF team. Highly interested in developing a career in Software Testing and gaining practical experience in enterprise software and SAP Transformation.

CERTIFICATIONS

Cisco Certified Network Associate (CCNA)
Microsoft Certified Solutions Associate Course (MCSA)
eLearnSecurity Junior Penetration Tester (eJPT)
Certified Ethical Hacker (CEH)
HTB Certified Penetration Testing Specialist (CPTS)

TECHNICAL SKILLS

Software Testing & Analysis: Software Testing Fundamentals, System Analysis, Troubleshooting, Bug Identification, Problem Solving, Attention to Detail
Networking: TCP/IP, DNS, DHCP, VLANs, NAT, Routing & Switching, Network Troubleshooting, Network Configuration
Network & Security Infrastructure: Routers, Switches, Firewalls, Sophos Firewall, Firewall Rules, NAT Configuration, Network Security Policies
Network & Diagnostic Tools: Wireshark, Nmap, Kali Linux
Systems Administration: Linux, Windows Server, Active Directory, System Administration
Cybersecurity: Network Security, Vulnerability Assessment, Network Penetration Testing, Web Application Security, Enumeration, Exploitation, Privilege Escalation
Programming & Scripting: Python, Bash

PROFESSIONAL TRAINING

ITON — Jordan | System Administrator Training *2026*

- Completed practical System Administration training with hands-on exposure to networking, infrastructure administration, Active Directory, and firewall configuration.
- Worked with TCP/IP, VLANs, NAT, DHCP, and network troubleshooting.
- Gained practical experience with Sophos Firewall, including firewall rules, NAT configuration, and network security policies.
- Worked with Windows Server, Active Directory, and Linux administration fundamentals.

National Cyber Security Center (NCSC) — Jordan | Cybersecurity Training *2025*

TECHNICAL PROJECTS

Graduation Project — Al-Zaytoonah University of Jordan, Amman

- Performed hands-on penetration testing of web applications to identify, analyze, and validate security vulnerabilities and their potential security impact.
- Contributed to implementing defensive security mechanisms, including a Web Application Firewall (WAF) and Honeypot.
- Worked with system analysis, security testing, troubleshooting, and validation throughout the project.

HONORS & LEADERSHIP

- 1st Place — Beyond Limits Hackathon, "The Puzzle of Possibilities", competing among Jordanian universities.
- Team Leader — iTeamZUJ CTF, 2024–2025.

EDUCATION

Al-Zaytoonah University of Jordan — Amman, Jordan | Bachelor's Degree in Cybersecurity

LANGUAGES

Arabic — Native | English — Professional Working Proficiency
